

1 PREPARE 2 TREAT 3 MAINTAIN

INTENSIVE WOOD CLEANER

cleaning

Easy and fast cleaning

Basic cleaning and grease removal. Prepares surfaces for additional treatment. Reduces the surface tensions, so the following treatment can be done with great result.

effect

High efficiency

Neutralizes tannin and helps minimize the risk of discoloration. Helps achieve more intense colours. Extends the lifetime of the wood.

surface

For all surfaces

For unfinished, oiled, waxed, lacquered or soaped indoor wood surfaces. Only for indoor use.

eco

Indoor climate labelled

Ensures a good working environment during application. Does not harm indoor air quality.

PRODUCT DESCRIPTION

Intensive Wood Cleaner is a product that has been specially developed for the cleaning of all indoor wooden surfaces, such as furniture, floors, kitchen tables etc. and can be used on untreated, oiled or lacquered surfaces. Intensive Wood Cleaner is a priming cleaner, that can be used on particularly

stubborn stains or before a surface is treated with for example oil, lacquer or soap.

APPLICATION AREA

Cleaning of new, untreated, sanded and treated wood. Ideal for all species of wood.

Product information

Coverage: 200-300 m²/L

Packaging: 1 L + 2.5 L

WORK DESCRIPTION

Preparation

Always remember to test on a less visible spot to check the compatibility of the surface with the product.

Mixing ratio

1:20-1:40, depending on the degree of soiling or surface.

Note

This product is NOT to be used for regular, everyday cleaning.

For best results, use two buckets: one with soap water and the second with clean water to rinse the dirty mop.

TREATMENT

- 1 Untreated wood surfaces**
1) Mix 125 ml of Intensive Wood Cleaner with 2.5 L warm water. 2) Wipe the wood surface with a well-wrung mop. If the surface is very dirty, repeat. 3) Let the surface dry completely before subsequent treatment.
- 2 Soap-treated or oiled wood surfaces**
1) Mix 125 ml of Intensive Wood Cleaner with 2.5 L warm water. 2) Wipe the wood surface with a well-wrung mop. For best results, leave Wood Cleaner solution on the surface to work for 5 minutes and wipe again with clean water. If necessary, the surface can be cleaned with a hand-held pad or a floor machine. If the surface is very dirty, repeat. 3) Let the surface dry completely before subsequent treatment. 4) Intensive Wood Cleaner is a heavy-duty, deep cleaner; therefore, surfaces should be re-oiled/waxed or soaped again.
- 3 Lacquered wood surfaces**
1) Mix 125 ml of Intensive Wood Cleaner with 5 L warm water. 2) Wipe the wood surface with a well-wrung mop. 3) Lacquered surfaces should be refreshed with WOCA Master Care.
