MASTER CLEANER

resistance

Effective care and cleaning

Produces a stronger, more resistant surface. Extends the lifetime of the floor.

cleaning

Fast and easy to use

Simple to use and leaves the surface sparkling clean. Perfect for frequent cleaning.

eco

Indoor climate labelled

Ensures a good working environment during application. Does not harm indoor air quality.

PRODUCT DESCRIPTION

Master Cleaner is for those who prefer a quick and easy way of cleaning of your lacquered wooden floors and vinyl and laminate floors, with excellent results. The soap effectively removes dirt and grime, as well as making the surface stronger and more resistant to liquid spillage. As the soap leaves no layer of soap, it is perfect for surfaces where frequent

washing of floors is required, such as kitchen floors. For great results, you can also use Master Cleaner to wash painted floors, tiles and other non-absorbent surfaces.

APPLICATION AREA

For vinyl, laminate and lacquered/painted surfaces, as well as on tiles and other non-absorbent surfaces.

Product information

Coverage: 300-400 m²/L

Packaging: 250 ml + 1L

WORK DESCRIPTION

Preparation

Wash particularly dirty floors/stubborn stains using WOCA Intensive Wood Cleaner first.

Mixing ratio

125 ml to 5 L water.

Maintenance

We recommend that the floor is maintained using WOCA Master Care twice a year. Using this product will smoothen small scratches and protect the surface against wear, extending the lifetime of the floor. Please read product instructions before use.

TREATMENT

- 1 For daily cleaning, mix 125 ml Master Cleaner with 5L of hot water.
- 2 Wash the floor along the length of the floor covering. We recommend that you work using two buckets, one for wringing the cloth and the other for clean soapy water.

It is important that no water is left on the floor after cleaning.
