

① PREPARE ② TREAT ③ MAINTAIN

WOOD FURNITURE CARE KIT

PRODUCT DESCRIPTION

Wood Furniture Care Kit, Oil is suitable for proper care of wooden furniture that has already been oiled. It cares for and refreshes the wood, giving your furniture an attractive and durable oil-treated surface. The kit contains all you need for the entire treatment.

CONTAINS

- 200 ml Maintenance Gel
- 150 ml Intensive Wood Cleaner
- A black sanding pad
- A white polishing pad
- A lint-free cloth
- Work instructions

Product information

Coverage:

Regular maintenance: 20-30 m²/200 ml.

Newly-sanded/non-maintained wood: 20-30 m²/L.

Improves resistance

Increases the oil's ability to resist stains, spills and wear.

Natural glow

Refreshes the oiled surface and the natural glow of the wood.

Easy to apply

Application and polishing can be done by hand with a hand scrubber.

Quick-drying

Light use: 4-6 hours.
Fully hard: 2-3 days.

WORK DESCRIPTION

Preparation

Prior to treatment with Maintenance Gel, the wood surface must be cleaned thoroughly. Spray the ready-mixed Intensive Wood Cleaner onto the surface and leave for 5 minutes.

Wipe the surface with a clean cloth that has been wrung out in clean water. The furniture should dry for at least 8 hours at 20 °C.

If the surface has become uneven [grainraise], the wood can be sanded with the black sanding pad. Remove sanding residue using the small brush head of your vacuum cleaner.

Risk of self-ignition

Any cloths that are soaked in gel should be stored/disposed of in sealed containers or incinerated due to risk of self-ignition.

Daily cleaning

For daily cleaning, use a tightly wrung cloth with WOCA Natural Soap or WOCA Natural Soap, Spray.

TREATMENT

- 1 Apply an appropriate amount of Maintenance Gel to the white hand scrubber, not directly onto the wood. Carefully rub the gel into the wood in small circular movements. It is important to treat the entire surface until the wood is entirely saturated. We recommend that you apply the gel to smaller areas, as the product dries quickly.
- 2 Wipe off excess gel using a lint-free cloth. No excess gel should remain on the surface.
- 3 Wait 4-6 hours before using the treated item. Avoid getting water or dirt on the treated surface for the next 2-3 days.

Furniture can last for many years if cared for properly. We recommend that furniture is maintained 1-2 times a year, using the products in this kit.
